

Quality Control Software Specialist

Expesite is seeking a client satisfaction focused Quality Control Software Specialist responsible for requirements analysis, test case development, and application testing. This position is located in the corporate office which is an open, collaborative environment. Outstanding benefits including medical, dental, life insurance, paid short/long term disability insurance, a 401(k) Plan etc. await qualified candidates.

Required qualifications: BA or BS College degree in a relevant subject area **or** 3 years of proven job related experience, at least 2 years of experience in Quality Software Control or proven job related experience, must be proficient in testing applications in a web environment, must have good troubleshooting skills and be able to investigate thoroughly to determine the origin of any issues, familiar with Waterfall and Agile SDLCs, experience in automated testing is a plus, but not required. Office Tools (Word, Excel, PowerPoint), defect tracking software, and Test Management Software (i.e. HP QualityCenter, Inflectra SpiraTeam).

Some essential job duties and responsibilities are: Interact with developers and solutions engineers to create test cases based on the analyses of business requirements and functional specifications of projects. Write and execute manual test scripts, communicate issues identified throughout the testing process, revise test scripts as appropriate to meet changing needs and requirements, test production fixes as needed, develop and maintain a full and thorough comprehension of the AUT, strive daily to ensure internal and external client satisfaction, and maintain awareness of new and emerging technologies and the potential application on existing business processes and systems.

Additional personal traits required include:

- Communicate accurately and effectively project information to team members and superiors.
- Effective oral and written communication skills.
- Responsive with a sense of urgency to team and clients.
- Logical thought process and deadline-driven.
- Able to work with limited supervision.
- Manage time and multi-task with ease.

Please express your interest in this opportunity by responding with a resume to kgellner@expesite.com. Expesite is an Equal Opportunity Employer.
